

Signature Workshop
**TRENDS
INSPIRED**

OVERVIEW:

Join us as we dive into the Moroccanoil 2024 Trends that exemplify the brand's current creative vision, while learning how to incorporate them into your salon services.

Soleil Color is a highly customizable, off-the-scalp highlight design created for luxury blonde clients. The gradient of soleil (French for sun) blonde transitions perfectly from the base color, creating a natural golden hour effect for the balayage-obsessed client.

The **Phoenix Cut** got its name from a signature cutting technique that makes the hair look like the feathers of a bird. It's a style that can be worn with as much volume as your heart desires, or straight with never-ending movement.
